

**Course Topics/Speakers:**

Presenter: Andy Schreder CBO

Course Title: Minnesota State Building Code, Year in review

Andy has worked in both residential and commercial construction for nearly 25 years and has accumulated a great deal of experience along the way. Moving up the ranks from carpenter, foreman, inspector, plan examiner, and building official, Andy has continued to build on a foundation of education and shared experiences with those he meets. Knowledge of the jobsite and building department has now brought Andy to serve as an instructor for the industry. This has proven to be the most valuable position of them all, helping to make the connection between the code and the contractor. Andy's philosophy of "voluntary compliance through education" has proven quite valuable when working with homeowners and contractors, as well as other building inspectors and officials. Many in the industry strive to understand the "why" behind the "what" ; this is one of Andy's greatest strengths.

8:00 am to 11:30      short break at 9:30

1 hour break for lunch (provided)

12:30 to 4:00      short break at 2:30

Course overview: 7 hours of Contractor Continuing education is provided with focus on several key areas shown to be of particular interest over the last 12 months. Administration, building planning, wall construction and envelope protection will be of particular focus. Participation is strongly encouraged to learn from shared experiences and determine successful solutions. Training material will include a minimum of 1 hour focused on MN Rules Chapter 1322, Residential Energy Code as required by State Statute for MN Licensed Contractors.

**\*All 7 hours are approved for continuing education for residential building contractors and also for building officials by the Minnesota Department of Labor & Industry (includes 1 hour Energy)**
